

How to Use Print Map

The Print Map Tool in the WRR is available as a widget on the map. It allows you to print the map as it appears on your screen, including visible data layers and added symbology.

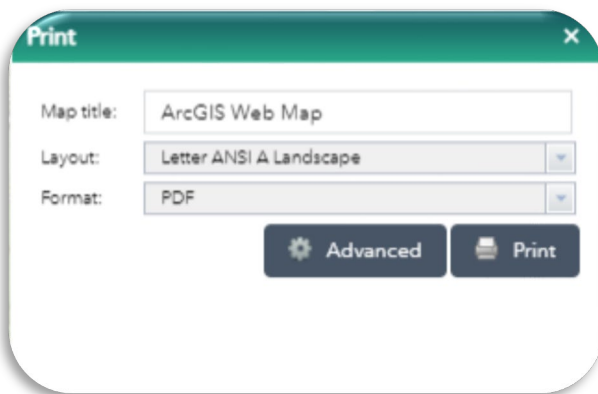

In the upper left-hand corner of the map, the widget with the printer icon is the Print Map tool. Click on this widget.

A pop-up box will appear prompting you to select a layout and a format.

The default layout 'Letter ANSI A Landscape' will print the map on your screen including a title, scale, and legend. A text box will appear for a Map Title. Type in your desired title.

Click on the Advanced Button for additional modifications.

Once you have made your desired modifications to the Advanced panel, click on the Advanced button again to make the pop-up box disappear.

The 'Advanced' panel is a white box with a blue border and a gear icon. It contains the following settings:

- Map scale/extent:**
 - Preserve: ☐ map scale, ☒ map extent
 - Force scale: ☐ 18,055.955 [current](#)
- Labels:**
 - Show labels: ☒
- Layout metadata:**
 - Scale bar unit: Miles (dropdown)
- MAP_ONLY size:**
 - Width (px): 670
 - Height (px): 500
- Print quality:**
 - DPI: 96
- Feature attributes:**
 - Include attributes: ☒

Click Print.

An pdf link appear with the title of your map.
Select this.

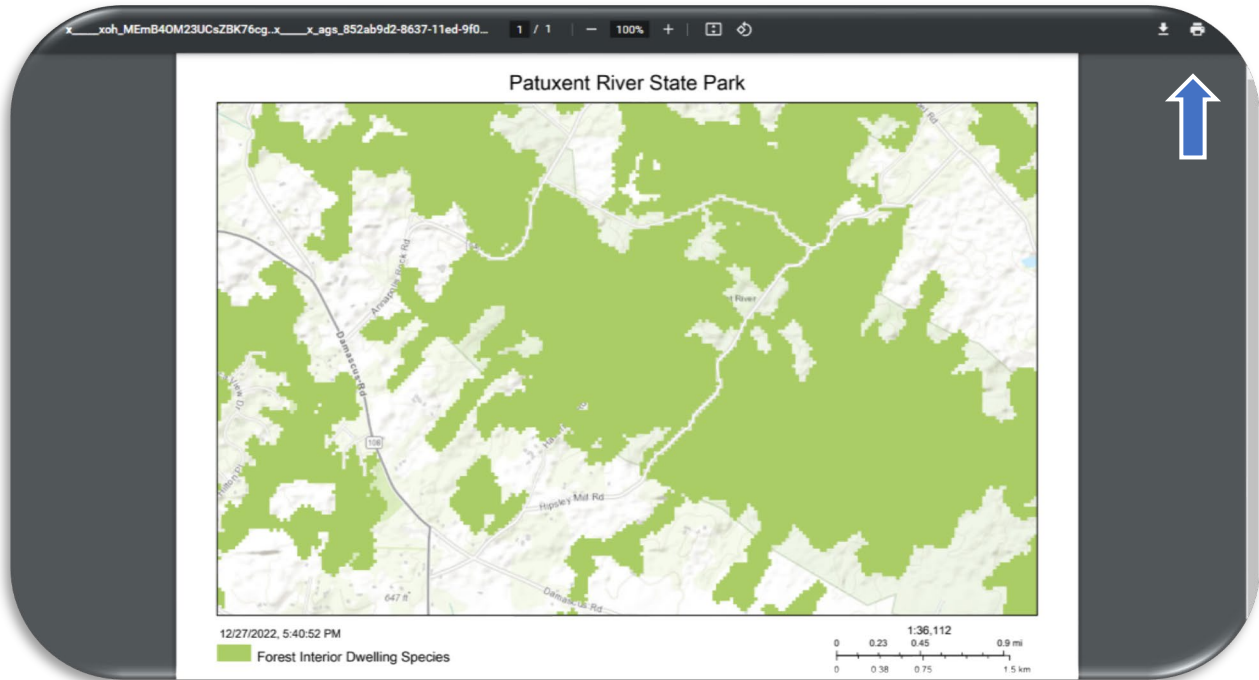

The 'Print' dialog box has a green header and contains the following elements:

- Map title: Patuxent River State Park
- Layout: Letter ANSI A Portrait (dropdown)
- Format: PDF (dropdown)
- Buttons: Advanced (gear icon), Print (printer icon)
- Print list: 1.  Patuxent River State Park (with a blue arrow pointing to it)
- Clear prints button (trash icon)

A new tab will open on your screen with your map.

In the new tab, there will be a printer icon in the upper right-hand corner. Select this icon.

A pop-up box will appear.

Under the Destination field, select your desired printer or choose the option to 'Save as PDF' and save the document on your computer.
